

PRODUCT CHANGE NOTIFICATION

Module Series Affected: All products made by Yingli Solar

January 20th, 2018 // CP-OM-D-001

Introduction

Yingli Green Energy Holding Company Limited (NYSE: YGE), known as “Yingli Solar”, is one of the world’s leading solar module manufacturers.

Yingli Solar has more than 20 years of module manufacturing experience and technological innovation, so we could continuously optimize the production quality, hold a leading position in the solar industry, and finally achieve our mission which is “Affordable Green Energy for All”.

In order to enhance the product reputation, protect the brand and better tracking products, we introduced Security Query System by pasting stickers onto modules to ensure that could be traced. Now let us describe the security code, paste location and switch date.

Descriptions

Applied to all products: According to the dimensions of modules and the design of Security Query System, please refer to Figure 1 to see the security code of before/after scraping.

Applied to all products: According to the dimensions of modules and the design of Security Query System, please refer to Figure 2 to see the paste locations.

The Security Query System does not result in the change of mechanical performance, electrical performance and installation.

Before scraping

After scraping

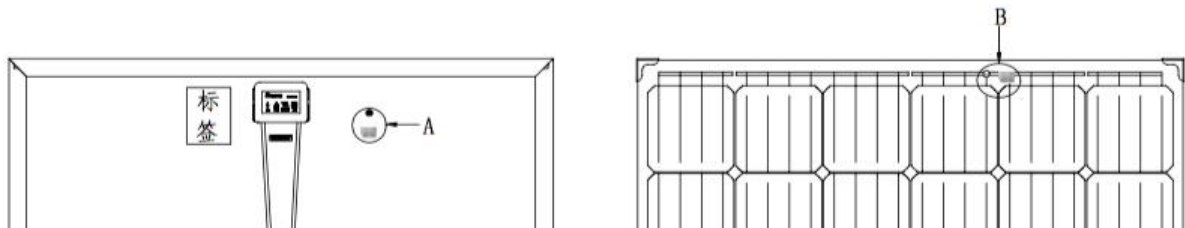

Figure 2: Paste locations

Implementation

Yingli Solar has scheduled to implement the aforementioned changes at the beginning of February, 2018, which means customers may receive shipments of these products in early March, 2018.

The specific transition timeline may vary among customers based on current and anticipated delivery schedules. For any technical questions, please contact: service@yingli.com. For all other inquiries, please contact your Yingli Solar sales account manager.

NOTE: Please check the attached file to get more information.

Attachment :

Security Query System

Step 1: Scrape the security code.

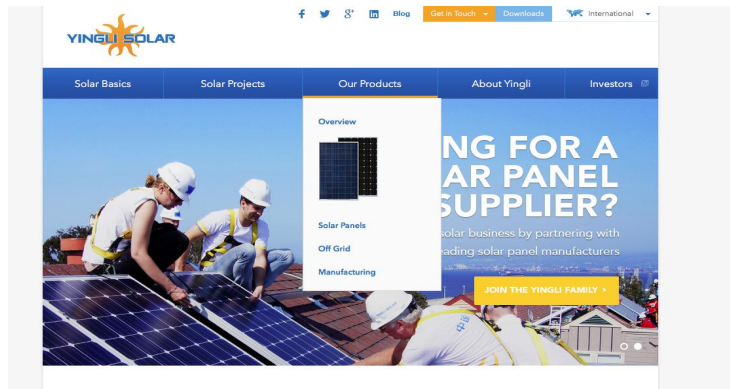

Before scraping

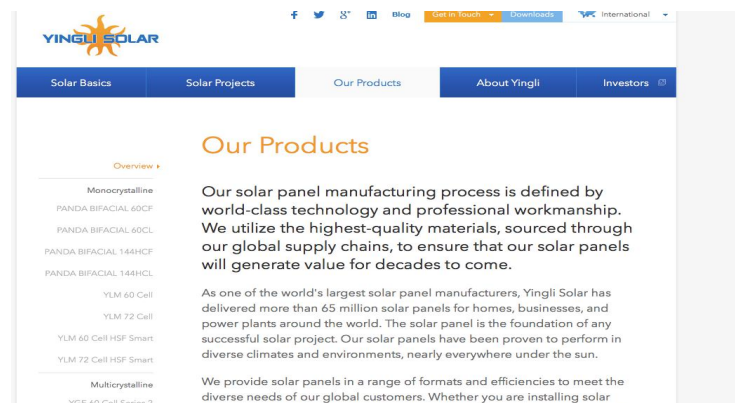

After scraping

Step 2: Login to the website, <http://www.yinglisolar.com/en/>.

Step 3: Click on “Our Products”, find “Product Information”, and you will see the link “Product Authenticity Check” and “Product Information Traceability”.

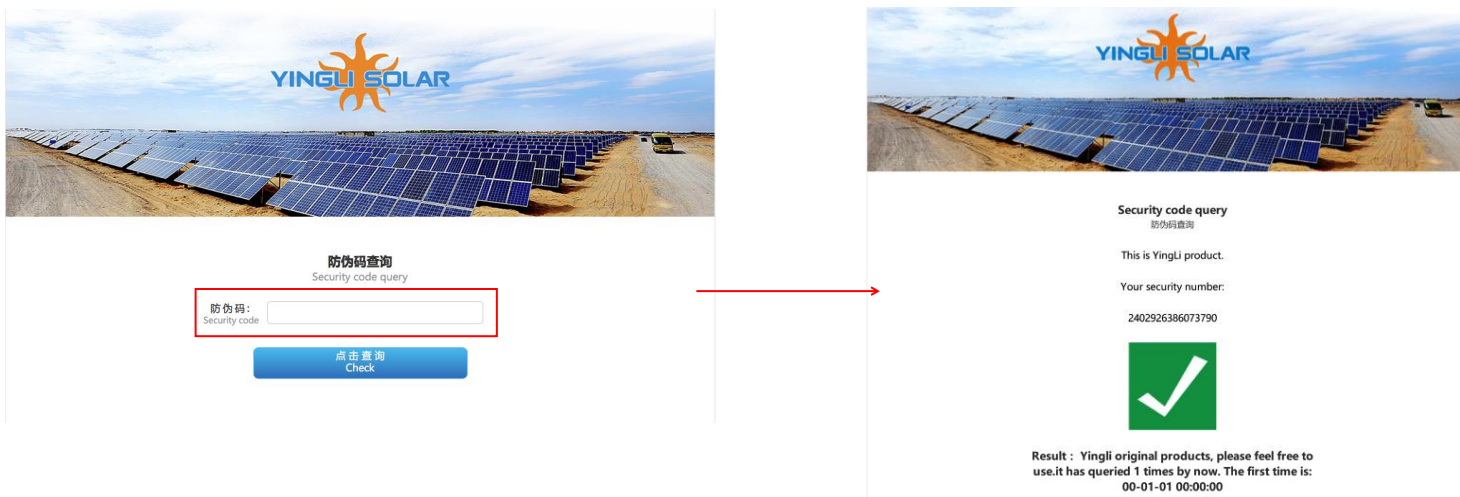

Product Information

As part of our effort to enhance our product credibility, we have introduced anti-counterfeit and product tracking systems.

[Product Authenticity Check](#)

[Product Information Traceability](#)

Step 4: Click the link “Product Authenticity Check”, enter the security code, then you could get the detailed information.

Step 5: Click the link “Product Information Traceability”, enter the trace code, then you could get the trace information. (The tracking system will be used from March)
